PREFACE

Furnished by C. C. McLean, Secretary Greensboro,
N. C., Chamber of Commerce.

The first attempt at colonization was made in 1548 by the illustrious Sir Walter Raleigh.

North Carolina was foremost to resist British tyranny. First pitched battle fought at Alamance May 12, 1771. Declaration of Independence signed at Mecklenburg, 1776. North Carolina lost 35,124 soldiers during the Civil War, having furnished more and lost a greater number of soldiers than any other Southern State (number from North Carolina, 125,000).

The population is of a singularly homogeneous character, being Virginians, mainly English, Pennsylvanians, mainly Scotch-Irish and German; Scotch-Irish, Scotch Highlanders and Lowlanders, Swiss and French Huguenots. Population, nearly 2,000,000.

North Carolina's position is nearly between the parallels 34 degrees and 36½ degrees north latitude, and between the meridians 75½ degrees and 84½ degrees west longitude. Extreme length, 503¾ miles; extreme breadth, 187½ miles; average breadth, 100 miles; area, 52,286 square miles, of which 48,666 is land and 3,620 is water.

Mt. Mitchell, 6,711 feet high, is the highest peak of the Blue Ridge range. Forty-three peaks exceed 6,000 feet in height; eighty-two peaks exceed 5,000 feet in height. The mountain region embraces 6,000 square miles. The mountains are covered with deep rich soil and clothed with massive forests to their tops. The walnuts, poplars and oaks attain a size that would hardly be credited by one who had not seen them.

All kinds of fruit attain a high state of perfection and all fruits, vegetables and grains are remarkably productive.

Average mean temperature, 59.6 from 1882 to 1897. Average snowfall for same period, 11 inches annually. Precipitation, 50.6. Wettest year on record, 1877; dryest year on record, 1897.

North Carolina is rapidly developing in all kinds of trucking and fruit growing. At the recent national apple show at Spokane, Wash., North Carolina took first prize for the finest apples exhibited.

Largest tannery extract plant, United States Leather Company, Old Fort.

Largest wood fibre plant, Champion Fibre Company, Canton, N. C.

Largest denim mills, White Oak Mill, Greensboro.

Greensboro—The City of Progress.

The increase in Greensboro's wealth and population from 1900 to 1910 is very great, as the following tables will show:

PREFACE

1900.

In 1910	8,600,000.00
Tax rate \$1.30 on the \$100 val- uation.	

In 1900 Greensboro had 14 1-4 miles of water mains, and in
mile of macadam and two miles of cement sidewalk.

In 1910 the city had nine and one-half miles of macadam, two
and one-fourth miles of gravel, three-quarters of a mile of vitri-
fied brick streets and forty miles of cement sidewalk.

In 1900 Greensboro had 14 1-4 miles of water mains, and in
1910 21 1-4 miles.

In 1900 there were 300 telephone, one long distance and no
rural phones. In 1910 there were 1,750 telephones and long dis-
tance connection with every city in North Carolina.

In 1900 there were three and one-half miles of sewer pipes,
and in 1910 there were forty miles.

There was no street railway in 1900, but in 1910 there were
11.91 miles.

Freight receipts have increased more than 161 per cent. since
1900.

Nothing in the foregoing includes the enlarged capacity of the
Greensboro Female College, the State Normal and Industrial Col-
lege, the A. and M. College for the colored race. And none of
it includes the millions of dollars that have been expended in
buildings and enlarging the four cotton mills just outside the
city, and that are, to all intents and purposes, a part, and a very
important part, of the city of Greensboro.

Climate and Health.

Located in the Piedmont section of North Carolina, Greensboro has almost perfect climatic advantages; a gently rolling country, without the disadvantages of the heavy dews and sudden temperature changes of the mountains, or the oppressive humidity of the low country. It rarely get extremely hot or extremely cold, and never remains so more than a day or two.

The air is peculiarly adapted to the physical wants of children, and those suffering from respiratory weakness seem to experience great comfort after coming here from other sections. The altitude is 843 feet.

There are no wet and dry seasons, but an equable distribution of rain throughout the year, the surface drying rapidly after falling weather. The whole surrounding country is naturally well drained, and the Guilford county officials take great care to preserve this healthful condition. In addition to the natural hygienic advantages, Greensboro has a splendid sewerage system, and laws compelling their use; the water is excellent, both as to taste and health qualities, and is tested for purity every month; oftener, if there is the slightest suspicion of contamination; a rigid meat and milk inspection, under the management of a graduate veterinarian, insuring pure milk and good meat; a working Board of Health, always striving to improve the sanitary conditions, and as a result of the above institutions, and natural aids to health, there has been no epidemic of serious nature in the city for the past decade.

Greensboro is situated within twenty-eight miles of the exact center of the State from north to south.

The largest denim mill in the world, with about sixteen acres of floor space, and 10,000 electric horse-power, representing an investment of \$5,000,000, is located at Greensboro.

The largest iron and wood-working machinery plant in North Carolina is located at Greensboro.

More passengers, freight, express and mail matter handled at Greensboro than at any other point on the Southern railroad between Washington, D. C., and Atlanta, Ga.

The great diversity of articles made in Greensboro are strong factors which draw others, and go to make sure the future progress of the city. A modern hospital, fully equipped in the most up-to-date style, costing \$100,000, is patronized by citizens from every section of the State. The Moses H. Cone Memorial Hospital will be erected in 1912 at a cost of about \$350,000.

The Keely Institute, Williams Sanitarium, and Telfair Institute are fully equipped for the treatment of the whiskey and nervous troubles.

A 25,000,000 gallon reservoir, supplied from a never-failing stream eight miles from the city, and piped to the city settling basin, where it is run through two filters, gives Greensboro an abundance of the purest of water.

Elevation, 843 feet; average snowfall, 11 inches; average mean temperature, 59.6; precipitation, 47.5.

The largest nursery in the State, with two others, are located at Greensboro, and send out more than 200 traveling men selling their product throughout the entire South.

The largest terra-cotta plant in the State is located at Greensboro.

PREFACE

Educational and Social Advantages.

Greensboro was the first city in North Carolina to establish a graded school system.

Greensboro has nine public graded schools for white and two for colored people.

Here are the State Normal and Industrial College for young women with an enrollment of six hundred, Greensboro Female College with an enrollment of two hundred, Business College, State Agricultural and Mechanical College for colored, Lutheran Emanuel College for colored, and Bennett Seminary for colored.

In addition there are private preparatory schools and kindergartens.

Greensboro has two daily papers, three weekly papers and one monthly magazine.

Greensboro has two Carnegie Libraries.

Greensboro has a magnificent new Y. M. C. A. building and an active Y. W. C. A..

Greensboro's handsome churches are her pride, all denominations being represented.

The secret orders are all represented. The Elks own a magnificent home.

The new Country Club with its handsome building and golf course is especially attractive, and the Merchants' and Manufacturers' Club has one of the handsomest and best equipped club-rooms in the State.

Ask for the Greensboro Make. Help build larger home manufacturing plants by increasing the demand for the product of the factory already located here.

Articles Made in Greensboro.

Iron and wood-working machinery, foundry supplies, saw mills, sash weights, stove grates, section grates, fire escapes, stoves, cultivators, brooms, buggies, wagons, sash, doors, blinds, lumber, brick, flour, corn meal, picture frames, denims, cotton flannel, bread, cakes, window shades, furniture, soft drinks, cigars, plug tobacco, wire bed springs, wire cots, mattress, boilers, engines, card-roll machines, feed cutters, drugs, canned goods, books, overalls, candy, drain tile, sewer pipe, harness, bridles, monuments, corrugated roofing, gas, ice, porch columns, rubber stamps, blank books, goose-grease liniment, dyes, laundry machinery, safety air brakes, window hinges, ironing boards, sheeting, Asbestos pipe covering, building blocks, etc.

Hunters find that the lands contiguous to Greensboro abound with game and during the winter months many hunters from the North make their headquarters here.

Guilford County.

The county of Guilford was formed in 1770 from Rowan and Orange counties and was named in honor of Lord North, Earl of Guilford, Prime Minister to King George III. In 1808 the county seat was removed from Martinsville to Greensboro (named in honor of General Nathaniel Green).

From Guilford county, west, it is 250 miles to the extreme south border of the State, while from Guilford, north, it is 211 miles to the most northerly point on the Atlantic coast; thus show-

ing Guilford to be in almost the exact center of the State from north and south.

In the heart of the delightfully healthy Piedmont Plateau, midway between the mountains and the sea.

Guilford county is twenty-four by twenty-eight miles in area and contains 672 square miles. The 1910 census gives Guilford county a population of 60,497, an increase in the last ten years of 54 per cent. Guilford county, as is shown by the records, is one of the richest and most prosperous counties in the State; she has always taken advanced steps in progressive measures, being the first county in the State to vote a local school tax, the first county to establish agricultural schools, the first county to employ a salaried superintendent of health, who devotes his entire time to health problems; the first county to employ expert instructors in the science of housekeeping; the first county to adopt the salary system for all county officers, which has saved the county thousands of dollars annually, and has improved the efficiency of the service rendered by the officers. Guilford has 120 miles of macadamized road, 25 of which are built with liquid asphalt, and the county officials are building 10 miles of new road each year out of the general fund. The \$1,000 prize offered to the county having the best road between Roanoke, Va., and Atlanta, Ga., was awarded Guilford county. There have been recently erected six iron and two concrete bridges.

Guilford county counts as one of her largest assets her excellent roads, which radiate from Greensboro in all directions. Farm lands have greatly increased in value since the building of these roads, yet good farms on macadam roads can be purchased at very reasonable figures.

Guilford is the only county in the State with two cities with over 10,000 population each, and nowhere in the State is the hand of improvement more visible than in Guilford county, almost the entire region is dotted over with thriving villages and towns. The homes indicate a high degree of thrift. Guilford has long been recognized as the banner educational county in the State; it is the home of the noted Guilford battlefield of Revolutionary fame. Guilford county has the best public school facilities, the largest number of factories, the great diversity of manufacturing establishments, the most churches and the largest population of any county in the State.

Guilford county has the best public school facilities, the largest number of factories, the great diversity of manufacturing establishments, the most churches and the largest population of any county in the State.

Living is cheaper than in the Northern States, mild, healthy climate and mild winters make little fuel necessary; no ice in winter or droughts in summer to make it necessary for manufacturing plants to close down.

The soil in the Piedmont section is very much diversified. This added to favorable climatic conditions offers great agricultural possibilities for the farmer in all lines of farming and trucking, which finds a ready sale on the local market at good prices.

The agricultural development in Guilford county for the past ten years has been most remarkable. Extreme heat or cold is unknown—in fact, the climate is ideal. Its lands are well adapted to raising all small grains, wheat, oats, rye, corn, as well as tobacco and cotton. No county in the State grows a greater variety or is better adapted to fruit growing. Peaches, apples, plums, grapes and berries of all varieties flourish. The soil is well adapted and home markets make trucking an important and lucrative business. The agricultural development and possibilities of the county as

indicated by the improved methods of farming put in operation by the "farmer" and "farmers' boys" (under the direction of the National Agricultural Department) in the past few years resulted in raising the yield of corn from seventeen bushels to more than one hundred bushels on one acre.

Good farming lands located on macadam roads can be had at prices varying from \$20.00 to \$40.00 per acre. Stock raising is profitable and dairying especially inviting. Clovers, vetches and alfalfa grow with little effort or encouragement, yielding 1 1-2 to 3 tons per cutting and alfalfa yielded six cutting this past year. Native meadow grass hay is cut twice each year, and generally yields three crops per year.

Some of the largest fruit and shade tree nurseries in the South are located in Guilford county.

The Greatest Value in

Advertising is that which is presented at the time one is ready to buy; the classifications in the City Directory are the very best forms of advertising, because they reach the buyer when he is seeking the name and address of some business house from whom he may buy.

Association of American Directory Publishers

HEADQUARTERS,
202 EAST 12TH STREET, NEW YORK.

ORGANIZED NOVEMBER, 1898

J. L. HILL, President

R. H. DONNELLEY, 1st Vice-President

W. H. LEE, 2d Vice-President

W. H. BATES, Secretary and Treas.

TRUSTEES

WM. E. MURDOCK, Boston

R. H. DONNELLEY, Chicago

A. V. WILLIAMS, Cincinnati

J. L. HILL, Richmond, Va.

R. L. POLK, Detroit

W. H. BATES, New York

W. H. LEE, New Haven

E. M. GOULD, St. Louis

W. G. TORCHIANA, Philadelphia

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST:—To improve the directory business by the interchange of ideas, and by the exchange of competent employees,

SECOND:—To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD:—To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH:—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

\$100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph W. H. Bates, Secretary, 202 East 12th Street, New York.

OUT-OF-TOWN WORK SOLICITED

201-207 Governor St.
RICHMOND, VIRGINIA

If 9,896 Farmers

and planters told you that their yields per acre of cotton, corn, tobacco, wheat, fruits, peanuts, rice, sugar cane and truck crops were greatly increased and even doubled

By Using Virginia-Carolina Fertilizers

and which they thought the best and biggest crop producers on earth—wouldn't you feel that you should, in justice to yourself, try these fertilizers and get the same increased yields on your own farm? We have many thousands of un-asked-for letters from farmers blessing the day they bought Virginia-Carolina Fertilizers. Many of these letters are in our 1910 Farmers' Year Book, which can be had free of your dealer, or by mailing us the coupon

Business Directory

1912-13

Copyright 1911, by Hill Directory Company

Using the Classified

Lists in the City Directory is like going to the market place, it brings to view each and every individual in any and all lines of trade, it will save you large sums of money and always secure the best of everything.

Association of American Directory Publishers

HEADQUARTERS,
202 EAST 12TH STREET, NEW YORK.

ORGANIZED NOVEMBER, 1898

J. L. HILL, President

R. H. DONNELLEY, 1st Vice-President

W. H. LEE, 2d Vice-President

W. H. BATES, Secretary and Treas.

TRUSTEES

WM. E. MURDOCK, Boston

R. H. DONNELLEY, Chicago

A. V. WILLIAMS, Cincinnati

J. L. HILL, Richmond, Va.

R. L. POLK, Detroit

W. H. BATES, New York

W. H. LEE, New Haven

E. M. GOULD, St. Louis

W. G. TORCHIANA, Philadelphia

THE OBJECTS OF THE ASSOCIATION ARE AS FOLLOWS:

FIRST:—To improve the directory business by the interchange of ideas, and by the exchange of competent employees,

SECOND:—To protect the public against fraudulent advertising schemes, operated under the name of directories, and to drive the promoters of such out of the business.

THIRD:—To provide permanent and continuous employment for honest and faithful directory canvassers.

FOURTH:—For the mutual advancement of the established and prospective interests of all who may become members of the Association.

\$ 100 REWARD

The Association of American Directory Publishers will pay the above reward for the arrest and conviction of any one soliciting or collecting money on Fraudulent Directories, provided the conviction results in imprisonment of not less than 6 months. In case of arrest immediately telegraph W. H. Bates, Secretary, 202 East 12th Street, New York.
